Waste Collection Permit Advisory Notes

1. INTRODUCTION

The following advisory notes should be read prior to commencing any waste collection activity.

Amendments have been made to both the Waste Management Act and the Waste Management (Collection Permit) Regulations in 2015 and 2016 which have required a new set of conditions for waste collection permits. These conditions have been included in the enclosed permit.

You must read all the conditions of your permit; these advisory notes aim to assist you in implementing these conditions but are not a legal interpretation of the legislation, regulations or permit conditions.

2. WASTE COLLECTION PERMIT LAYOUT

Your waste collection permit is divided into 4 main sections:

- Cover page and explanatory text including the reason for the decision, appeal process, interpretation and information on the review of your permit (pages 1-4).
- Conditions 1–5: Standard conditions for all waste collection permits.
- Condition 6: Conditions specific to certain waste types.
- Appendices A-D (Appendix E for household kerbside waste collectors only).

3. KEY CONDITIONS TO NOTE ON RECEIPT OF YOUR PERMIT

While you need to read and implement **ALL** the conditions of your permit, your attention is drawn in particular to the following which may require action prior to commencing activities:

<i>Condition 1.1</i>	Clarifies that you are only permitted to carry on your waste collection activity in accordance with the details included on the appendices attached to your permit.
<i>Condition 2.4</i>	Requires an Emergency Response Procedure to be put in place and a copy placed in each vehicle.
<i>Condition 2.5</i>	Requires operatives and employees to be made fully aware of the conditions of the permit.
<i>Condition 2.13</i>	Requires a copy of the waste collection permit to be placed or made available electronically in each vehicle.
<i>Condition 2.15</i>	Requires the permit number to be included on all company stationary and advertising material.
<i>Condition 3.4</i>	Requires the permit number to be displayed on each vehicle.
<i>Condition 3.5 & 6.1.6 (where applicable)</i>	Requires all skips, tankers, trailers, receptacles etc. to be labelled appropriately.

8. COORDINATION OF THE ENFORCEMENT OF WASTE COLLECTION PERMITS

The Waste Enforcement Regional Lead Authorities (WERLAs) will have responsibility for coordinating waste enforcement actions within regions, setting priorities and common objectives for waste enforcement, ensuring consistent enforcement of waste legislation across the three existing waste management planning regions while still leaving local authority personnel as first responders on the ground to specific breaches of waste legislation. This is intended to facilitate a transformation from process driven enforcement, structured around separate implementation of individual regulations, to one that focuses greatest effort on the waste problems and issues that matter most and to take swift, proportionate and effective action. To this end the WERLAs and NWCPO will be working closely to ensure a consistent enforcement approach to the Waste Collection Permitting system.

REASON FOR THE DECISION

Offaly County Council as the National Waste Collection Permit Office is satisfied on the basis of the information made available by the applicant, that subject to compliance with the conditions of this permit the activity will not cause environmental pollution, and the grant of this permit is consistent with the objectives of the current National Hazardous Waste Management Plan and the objectives of the current Eastern-Midlands Region Waste Management Plan, Southern Region Waste Management Plan and/or Connacht-Ulster Region Waste Management Plan as applicable to the local authority areas where waste is collected.

In reaching this decision Offaly County Council as the National Waste Collection Permit Office, has considered the application and supporting documentation received from the applicant and valid submissions received from the relevant local authorities, the Environmental Protection Agency (EPA) and other parties.

APPEAL OF DECISION

The permit holder may appeal the decision of the NWCPO to grant this waste collection permit in accordance with section 34(9)(a) of the Waste Management Act 1996 to the judge of the Tullamore District Court, it being the District Court in which the principal offices of Offaly County Council is situated within one month of the date of this permit.

This permit and any condition imposed therein shall not relieve the permit holder of any statutory obligations.

Any non-compliance with the conditions of this permit is an offence under the Waste Management (Collection Permit) Regulations, 2007 as amended and section 34(1) of the Waste Management Act 1996.
